MEN AND MILLIONS

SPEAKERS TELL OF NEED OF WORKERS IN MISSION FIELD AT CHRISTIAN CHURCH

Those who attended the Christian Church Sunday night had the rare pleasure of listening to five members of the great Men and Millions team, now touring the Southland under the leadership of two of the ablest men of the great Christian brotherhood—Abram E. Cory (called Abe by nearly all the men he meets) and R. H. Miller. This team gave a great "set-up" meeting in Los Angeles last Friday. They were promised an attendance of 800 and had 3000, necessitating a transfer from Berean Hall in the Temple Auditorium to the First Methodist Church. Here 20 consecrated speakers, missionaries, secretaries of missionary and benevolent associations, and college presidents outlined most vividly the needs of the fields. Arrangements were made at this meeting for teams of five to go to different churches during the next two weeks and set forth the aims of the Men and Millions movement. One of these teams was at the Glendale Christian Church last night. After the opening exercises, Geo. W. Muckley, secretary of the Church Extension Board, took charge and rapidly outlined the program of the evening, which was to consist of six-minute addresses from his four associates and a closing talk by himself. Mr. Moore, missionary to Africa, with headquarters at Bolengi, was the first speaker, and he outlined the needs of that vast field where he had been laboring for the past nine years. It was for him that the little steamship Oregon was built and equipped by the people of Oregon at an expense of $3500 to ply along the mighty Congo and its tributaries. Mr. Moore spoke of the great church at Bolengi, where every tenth man is sent out and supported as a missionary by nine others. This church has the largest Christian Endeavor Society in the world with over 4000 members. Mr. Moore eloquently set forth the needs of this vast field of 60,000,000 black people, pressed upon by the hordes of Mohammedans in the interior of Africa, and told of how the men of different villages plead with him to send more white men to tell them the story of Jesus.

He was followed by Mrs. Madden, who with her husband, labored in Japan for 20 years. She spoke of the 200,000 girls and women who go into the factories every year and who are hungry for the gospel. Only one worker, a faithful woman of 60

GOD'S HAND AT HELM

"THEY SHALL NOT CLEAVE ONE TO ANOTHER" IS WRITTEN OF NATIONS

That the Bible is not a cunningly devised fable, but in reality all that it claims to be, was the declaration of Pastor George A. Snyder at the Glendale Seventh-day Adventist church, Third and Isabel streets, in his sermon at the regular service last Saturday morning. A large offering was received for the relief of Armenians and Syrians now suffering on account of the war.

The minister's text was Second Peter 1:16-19, in which the apostle says he heard a voice from heaven, saying of Christ, "This is my beloved Son, in whom I am well pleased." Peter adds, "We have also a more sure word of phophecy; whereunto ye do well that ye take heed, as unto a light that shineth in a dark place, until the day dawn, and the day star arise in your hearts. * * For we have not followed cunningly devised fables, when we made known unto you the power and coming of our Lord Jesus Christ." Mr. Snyder said, in part:

"Some would have us believe some smart man invented Christianity, and that many people have been deceived by it. But if we will, we may individually have the evidence that the gospel of Jesus Christ is not a fable, but a blessed reality. The primary object of the Christian religion is to save men from sin. What novel was ever written which achieved such an object? Novels cater to public sentiment; they seek the popular current, and go with it. The tendency of the human heart is to go in the ways of sin. To be saved from it is unpopular.

"A drunkard enters a hall where a meeting is in progress, hears the gospel, accepts Jesus Christ, is converted, confesses to God his sins, sobers up, stops beating his wife and children, and lives the life of an honest, upright citizen the rest of his days. This has happened not once, but hundreds of times. What fable ever lifted a man out of sin? No, the Bible is indeed what it professes to be, the Word of God, and the gospel is the

(Continued on Page 4)

BIG STOCKS OF SUGAR

TWO CROPS ACCUMULATED IN PHILIPPINES AND JAVA FOR LACK OF TRANSPORTATION

Carson Taylor, publisher of the leading daily in the Philippine Islands is in Southern California for the purpose of purchasing four modern linotypes and a duplex press for his plant. With the present congested conditions as regards freight, he may be detained here two or three months. He does not propose to leave here until assured that his purchases are on board ship. Even after they reach the docks there may be months of delay because of the lack of ships.

Concerning the war spirit in the Philippines, he says:

"The people are very much interested in the war. The Philippinos are anxious to go to the front. They have formed a National Guard and offered their services, which have been accepted, and their National Guard when fully organized will probably number 25,000.

"There are a number of young Americans and Philippinos that have passed examinations and are in training on Corregidor Island, for the aviation service. If they pass the first tests there and get along all right they will be sent to the United States to finish their training.

Many young Philippinos are volunteering for this service but the examination is so strict that so far only thirty have passed. Free schools and free text books in every district have effected astonishing results. The natives are grading up rapidly and making wonderful progress.

"There is urgent need of more ships to handle the Philippine trade. The Shipping Board has promised to set aside 100,000 tons of shipping which is being constructed by the government, for the Philippine trade. Twenty-three German steamers were interned in Philippine waters when the war started. Those were taken over by the government, repaired and sent to this side with cargoes, which relieved the congestion in local warehouses considerably. Some of the smaller German ships were retained there for inter-island service.

"We are using all of our products satisfactorily except sugar, of which we have now awaiting transportation the two crops of 1916 and 1917. Java is also loaded up with sugar. Sugar cannot compete with other products and pay the high freight, so it is crowded out. Coffee is coming through.

"Now that the government is wanting castor oil, the Philippinos are going in strongly for the culture of Castor beans.

"An industry which has been stimulated by the war is the embroidery business. It is taught in the schools and exports of embroidery since the war started have developed to eight or ten million pesos from almost nothing before. This is because European production has been practically shut off. It never has been marketed before to any extent. Large jobbing concerns in the United States send the garments over there already cut out and stamped with the patterns, they are embroidered by the Philippinos and then shipped back to the United States.

"They also make beautiful Irish Point lace, which is likewise taught in the schools. These products are bringing considerable money to the islands. More money is in circulation. It has gained so rapidly and so much money has come into the hands of the natives throughout the interior they have run short of subsidiary coinage to take care of the business and have been forced to issue "shinplasters"—paper bills of small denominations. The natives seem to hoard the small coins.

"The thrift stamp proposition had not arrived when I left but it will probably be a very good thing for the natives."

SERVICES DELAYED

At this writing the body of Lawrence Davis, the Glendale boy who died at Fort Myer, has not been received by his parents and funeral arrangements have necessarily been postponed. Services will probably not take place until Wednesday. As soon as anything is definitely known, in regard to the matter, announcement will be made in the Glendale Evening News.

WILL SELL CHURCH

The Board of Trustees of the First Methodist church recently took action to dispose of the old church property at the corner of Third street and Dayton Court. The property consists of two lots, 50x150, the auditorium building and two bungalows. This property is to be sold at public auction to the highest bidder on February 1.

AUSTRIA-HUNGARY CLAMORS FOR PEACE

DUAL MONARCHY IS SMOULDERING WITH OPPOSITION TO GERMAN MILITARIST LEADERS

(Special Service to Glendale Evening News)

ROME, January 21.—President Wilson's democratic outline of war aims has stirred Austria-Hungary into smouldering opposition to militarist Germany, according to reports to the Vatican today. It is understood the situation in the dual monarchy is "most critical to the Teuton Military Combine." Grievous differences have developed between Emperor Karl and the Pan-German leaders. Industrial chaos is reported throughout the nation. Strikes are spreading in protest of continuing the war purely to satisfy militarist Germany.

CROWDER RULES ON DEPENDENCY CLAIMS

MEN OF DRAFT AGE WHO HAVE MARRIED SINCE MAY 18, 1917, SHOULD NOT BE EXEMPT FROM SERVICE

(Special Service to Glendale Evening News)

WASHINGTON, January 21.—Men of the draft age who have married since May 18, 1917, should not be exempted from selective service, Provost Marshal General Crowder announced today. He instructed government agents to appeal to district boards of all classes in which local boards had granted dependency exemption to men who have married since May 18, 1917. At the same time Crowder ruled that no draft registrant be allowed to enlist in armies of the allies pending a call to this country's flag.

McADOO WANTS $1,500,000,000 FOR R. R.

SAYS THIS SUM WILL BE NECESSARY TO MAKE ROADS EFFECTIVE FOR NATION'S TRANSPORTATION

(Special Service to Glendale Evening News)

WASHINGTON, January 21.—Before thirty days the application of Garfield's Monday closing order may be discontinued, McAdoo declared before the Senate Interstate Commerce Commission today. It will probably be unnecessary beyond the middle of February, he said.

At the same time McAdoo startled the members of the committee by declaring that between a billion and a billion and a half dollars must be put into the railroads by the federal treasury to make them effective.

Meanwhile, today found the nation's railroads fighting with freezing weather, snow and freight congestion to reach the seaboards and the stalled ships with coal.

POLITICAL FIGHT IMMINENT

PRESIDENT WILSON OPPOSED TO WAR CABINET MEASURE INTRODUCED IN SENATE TODAY

(Special Service to Glendale Evening News)

WASHINGTON, January 21.—In the face of the president's avowed opposition, Senator Chambers introduced a bill in the Senate today creating a war cabinet. This action followed a conference between the president and Senators Martin and Simmons, democratic leaders, at which the president expressed his opposition to the measure.

The president's announced opposition to a war cabinet promises a bitter struggle. Senator Stone has announced that he will make an explosive speech in the Senate on "War and Politics," and Col. Roosevelt's coming to the capital promises a fiery period.

With President Wilson and Secretary of War Baker opposed to the war cabinet plan, to say nothing of a central war munitions purchase plan, there appears doubt that Congress will put the measure through. A big political row, however, is predicted. Republicans will open with violent criticism of the administration and democrats will reply with the charge that the Republicans are working up campaign fuel for the next election.

AUSTRIAN MINISTRY RESIGNS

(Special Service to Glendale Evening News)

AMSTERDAM, January 21.—The Austrian ministry has resigned, according to Vienna dispatches printed in the Berliner Morgenpost today. Count von Toggenburg, Minister of the Interior, is reported as attempting to reform the Cabinet, the Vienna dispatch added.

WOULD DOUBLE NAVY'S STRENGTH

(Special Service to Glendale Evening News)

WASHINGTON, January 21.—Legislation to more than double the authorized enlisted strength of the navy and to increase the number of navy fliers from 350 to 10,000 was asked of Congress today by Secretary Daniels.

SHIPPERS MAY COLLECT EXCESS RATE

(Special Service to Glendale Evening News)

WASHINGTON, January 21.—The Supreme Court decided today that shippers should be awarded reparation by the Interstate Commerce Commission for freight rates collected in excess without proving actual damages.

EXEMPTION BOARD

PHYSICAL EXAMINATION OF REGISTRANTS IN PROGRESS SINCE SATURDAY

Chairman Lanterman was not at headquarters this morning and communication with him was cut off because telephone wires in the neighborhood of his La Canada home had been prostrated by recent high winds.

Mrs. Jackson, his chief clerk was on duty, also Olin Spencer.

F. L. Muhleman received Saturday from Washington, his appointment as a member of the Exemption Board and was sworn in by Mattison B. Jones, a fellow member. He was at the headquarters yesterday.

Under the physical examinations begun Saturday, twenty-eight men were examined. They were resumed Sunday and the balance of those called given an opportunity for inspection by the examining physicians, Doctors Boyer and Flint.

About forty men have been called for the next physical examination which will take place at the headquarters on Broadway next Wednesday. On the following Saturday fifty more will be examined.

The names of three more men have been removed from the delinquent list on information filed with the Board. James Miller Holman, one of the men, is the son of George T. Holman, special agent of the Department of Justice who wrote a letter to Board Member Mattison B. Jones stating that his son enlisted in August and is thoroughly patriotic and obedient.

Affidavits were filed by relatives of the other two men stating that Seymour L. Johnson is with Battery A First Field Artillery, at Fort Sill, Oklahoma, and that Claud O. Young is in service at the naval training station at Vallejo.

SAN DIEGO CROWDED

Olin Spencer and family have returned from a delightful week-end visit in San Diego. They left Glendale Saturday and on arriving in the southern city began a canvass of the hotels for quarters. Everything was full, the soldier boys from Camp Kearny and their friends having absorbed all the accommodations. Fortunately the Spencers have friends there who took them in and gave them a very pleasant time. Sunday they made the tour of Camp Kearny under the guidance of a friend who is a lieutenant there and who showed them everything of interest. It is a wonderful place, and according to the lieutenant an exceedingly healthy place, with very little sickness among the men, numbers considered. Mr. Stencer says the soldiers complain of being charged exorbitant prices for accommodations in San Diego when they are on leave because of the lack of adequate accommodations on Saturdays and Wednesdays when leaves are granted and when visitors from abroad are more numerous than other days.

AT MRS. CAMPBELL'S

The War Relief and Recreation Committee which regularly assembles once in two weeks at the home of Mrs. Dan Campbell, met as usual Thursday forenoon. The lunch to which all contributed was spread at noon, covers being laid for fourteen. The rest of the time until 3:30 was devoted to sewing and knitting for the Red Cross. The ladies are anxiously awaiting the long promised stocks of yarn from the San Francisco headquarters.

Y. P. B.'s

Thirty-five or more young people responded to the invitation to attend the meeting of the Y.P.U. held at the home of Miss Gladys Lampert last Saturday evening. Present at this meeting were Miss Esther Gleason and Miss McPherson from the University of Southern California, who were week-end guests of Miss Lampert. Miss Gleason conducted a very interesting parliamentary drill and musical numbers were contributed by Messrs. Ichorn, Burkett and Cole. The balance of the evening was devoted to a social good time and dainty refreshments were served by the hostess.

TUESDAY AFTERNOON CLUB OPEN MEETING

The Tuesday Afternoon club will meet in regular session tomorrow afternoon at 2:30 at Masonic Temple. Mrs. Chester C. Ashley, president of Los Angeles Ebell will be the principal speaker. There will also be addresses by Miss Paula Dunnigan and Mrs. C. H. Ritchie. Members are urged to invite their friends to be present. Guest cards will not be required.

HOT SCHOOL LUNCHES

THIS AND OTHER PROBLEMS DISCUSSED AT BROADWAY P.-T. A. MEETING

The regular monthly meeting of the Broadway P.-T. A. was held at 3:15 Thursday afternoon, Mrs. A. C. Anderson, president, presiding.

The principal speaker for the afternoon was Mrs. Arthur Brown, president of the Glendale P.-T. A. Federation whose theme was "Opportunities of the Present." One of the opportunities which she especially emphasized was the chance afforded by the P.-T. A. for parents and teachers to co-operate.

The Association had the good fortune to have an unexpected speaker, Mrs. Kennedy of Pomona, State Chairman for Hot School Lunches. She explained the movement she is trying to promote and her talk was supplemented by remarks made by Mrs. Thacher who wants to establish a cafeteria in the basement of the Broadway School which will furnish hot lunches to the children. She outlined her plan and the matter will be taken up with the school authorities and the parents of pupils to determine whether it is practicable and desired.

Mrs. Rand, Principal, gave quite an outline of the benefit which is to be given for the Junior Red Cross by the Colorado and Broadway Schools in the High School Auditorium. She also reported that the school's allotment of $50 worth of thrift stamps had all been sold.

Miss Aileen Grist gave a beautiful rendition of "Keep the Home Fires Burning."

The president reported on the work of the forty children who meet Mondays and Wednesdays to cut paper for ambulance pillows under her direction. They are accomplishing a great deal and have been highly complimented on the beautiful work they are doing.

Mrs. Rand also told of the work of the Junior Red Star of which an auxiliary has just been organized in the school.

Tea and cake were served by the Domestic Science Chairman, Mrs. Barton. Mrs. Anderson, the efficient and deeply interested president of this organization has held her present office for four years. It is a peculiar coincidence that she attended the Broadway School when a little girl during a visit to her grandparents. She therefore feels that she belongs in an especially intimate way to the school.

W. C. T. U. DRIVE

PLANS OUTLINED FOR WAR WORK AND BONE DRY CAMPAIGN

The W. C. T. U. meeting, held at the home of Mrs. Chas. Grist, 131 S. Brand boulevard last Friday afternoon will long be remembered as the "High Water Mark" in enthusiasm and patriotism. The devotions were in charge of Mrs. Stanton, who read the 27th Psalm. Singing "Let the Lower Lights Be Burning" and Francis E. Willard's favorite, "A Charge to Keep I Have," and fervent prayer were offered by Mesdames Keim, Mottern, Potter and Smart. The reading of the minutes by the Secretary, Mrs. Louise Morton, is always looked forward to with pleasure, for Mrs. Morton is without exception an "ideal" secretary. Mrs. Hattie C. Young, State Recording Secretary, who was present, paid a glowing tribute to Mrs. Morton, saying, "She had been accustomed to hearing minutes read by secretaries in many places, but she had never heard any to equal Mrs. Morton's."

Mrs. Mary L. Moore, County Superintendent of Mothers' Meetings, who met with the Washington Heights Union recently, gave a stirring address. She also gave a report of the County Conference she attended, at which time a resolution was sent to President Wilson, asking him to extend prohibition over all alcoholic drinks including wine and beer, and thus conserve all foods, sugars, fruits and grains and railroad traffic and use of coal for war service needs.

Mrs. Moore, our Vice President, taking the place of our president, Mrs. Smart, who was ill, attended the County Committee on Dry Federation at Los Angeles last Tuesday, laying the plans for the Fresno Convention February 5. A resolution was adopted at the Friday meeting that we, the Glendale W. C. T. U. send a communication with our delegates to the effect that we want a Bone Dry Amendment and Bone Dry Legislators, and cannot support any measure under the Grape Growers' Protective Association, or the Rominger Bill. Mrs. Moore and Mrs. Root

GLENDALE, CALIFORNIA, MONDAY, JANUARY 21, 1918.

NEW U. S. BUREAU DEVOTED SOLELY TO WOMEN WORKERS

The war has made woman so important a figure in industry that for the first time in its history the United States Government has established a department devoted solely to the interests of women with a woman as head.

The women's division of the United States Employment Service, just organized under the Secretary of Labor, with Mrs. Hilda Muhlhauser Richards as director, will be a clearing house for woman labor of the nation. Should the war continue for a long period and the necessity arise, a part of its business will be to recruit women to fill the ranks of the industrial army wherever men are released for military duty or, because of new industrial conditions, transferred to new lines of work. At the same time it will aid to conserve labor standards.

"We do not aim to substitute women workers for men in any line of work," said Mrs. Richards. "Women should not do men's work when men are available for it. Only in cases where men are released for military duty and other work than their normal occupations should women be called to replace them, and then only when there is a shortage of labor. We will protect the women hired to replace men from exploitation by unscrupulous employers. We will have no dealings with employers who do not follow the principle of equal pay for equal work."

A building at 22 East Twenty-second street, New York City, has been rented by the United States Employment Service for its activities in the New York section and the entire first floor will be given over to the work of the women's division. Mrs. Richards will open these quarters next week and install a staff of workers.

There are now Federal employment agencies in seven cities. Each of these agencies has a branch to serve women. Plans for the expansion of the service to meet new industrial needs call for the establishment of a women's employment agency in every community to afford the jobless woman and the job seeking a woman to meet.

"The actual work of our department," said Mrs. Richards, "will be done in these community bureaus. Since there is no crying need at this time for the woman to replace the man in industry in this country, her old job awaits her. We will encourage her to stick to her accustomed occupation until it is absolutely necessary, for the welfare of the nation, that she step into man's shoes and do his work because of a shortage of man labor."

DESTROY HOMES OF PESTS

Clean up the cabbage patch! Don't raise a crop of insect pests on the stalks. That is what is likely to happen if stalks of cabbage or of cauliflower, collards, brussels sprouts, and such vegetables are left in the garden after they have fulfilled their food mission. Entomologists of the United States Department of Agriculture advise that where such remnants of the garden can be promptly fed to hogs or cattle a double purpose will be served—insect pests will be kept down and a food provided for meat-making animals.

The plants just named are affected by the same class of insects of which there are several distinct kinds—cabbage worms, the cabbage looper, harlequin cabbage bug, cabbage aphis, and other plant lice and cutworms—any one of which, if it occurs in sufficiently large numbers, is capable of destroying an entire crop. After the cabbage has been cut the stalks are likely to bear numerous shoots which harbor the insects in autumn and even during early winter. Cabbage heads which have not properly matured either because of insect ravages or for other reasons also may provide a place of refuge for bugs. All such crop remnants which cannot be used for feed, and weeds or other rubbish, should be desroyed now by burning.

If the gardener is familiar with the use of arsenicals some stalks may be left growing to serve as traps for insects, the specialists say. The pests which gather on such traps can be readily destroyed by dusting the plants with dry Paris green or arsenate of lead diluted with about 20 parts of finely sifted lime or road dust.

GET RID OF RATS AND MICE

In the United States rats and mice destroy each year in homes, factories, stores and warehouses, in cars and on ships, crops, poultry, and other property valued at more than $200,000,000—an amount equivalent to the gross earnings of an army of 200,000 men. Grain, eaten and wasted by rats and mice on many farms, would pay all of the farmer's taxes.

States, communities, and individuals can help eliminate rats and mice:

By requiring that all new buildings, wharves, and other structures be rat-proof; that existing buildings of rat-proof construction be further protected by having basement windows and drains covered with screens, gratings, etc.; and that existing buildings that are not rat-proof be made so by remodeling.

By constructing sewers and drains so that they will not provide entrance and retreat for rats.

By insisting on greater cleanliness about markets, stores, and generally throughout cities, villages, and the country districts.

By threshing and marketing grain early so that stacks will not furnish harboring places and food for rats.

By removing piles of straw, trash, and lumber which harbor rats in fields and vacant lots.

By protecting the hawks, owls and other natural enemies of rats which are not so destructive to poultry as rats themselves.

By keeping well-trained rat dogs on farms and about city warehouses.

By keeping provisions which rats and mice will attack in rat-proof and mouse-proof containers.

By destroying rats and mice systematically by poisoning, trapping, and by organized systematic hunts.

GERMANY AND UKRAINIA MAKE PEACE

AMSTERDAM, January 21.—The independent Russian republic of Ukrainia has agreed with Germany on a basis of separate peace, according to messages received via Berlin.

CALIFORNIA MEDICAL PRACTICES ACT VALID

(Special Service to Glendale Evening News)

WASHINGTON, January 21.—The Supreme Court today upheld the constitutionality of the California Medical Practices, sustaining the decision of the Supreme Court of that state.

GOOD TEMPLARS ELECT OFFICERS.

Glendale Lodge of Good Templars met in their regular session in the Odd Fellows Hall last Friday evening. This being the last business meeting of the quarter, the principal business on hand was the election of officers. The officers elected for the ensuing term are:

Chief Templar, Wm. Whycoff;
Vice Templar, Herbert Matthiesen;
Secretary, Jenny Allen;
Financial Secretary, Frank Jepson;
Treasurer, Mrs. Odin Askeland;
Marshal, Mrs. Annie Robbins;
Guard, Irene Wilkes;
Sentinel, Odin Oskeland;
Electral Supt., Robert Taylor;
Supt. Temperance Education, Mrs. Hattie Gaylord;
Reporter, Mrs. Herbert Matthiesen.

There will be several appointive officers. All will be installed February 1st, by Grand Chief Templar W. K. Jeffs of Pasadena.

A beautiful Service Flag, bearing three stars was presented to the lodge. The khaki-clad boys from the lodge are Oscar Wenberg, Floyd Farley and Seymour Johnson.

After the business session a number of invited friends came in to enjoy the program and games. There were several musical numbers, but owing to the lateness of the hour the mock trial did not proceed any further than to get the jury sworn in, then court adjourned until a later date, but not until the jury were warned to keep away from the witnesses of the case.

Then followed a grand march and other jolly games that everyone enters into and which no evening would be complete without.

SPRING PLOWING IN FRANCE TO BE DONE BY U. S. TRACTORS

To increase France's crops and to lighten the burden of toil on her old men, women and children 1,500 farm tractors will go to that country from the United States. The first hundred are already on the way, and the whole number will be in France by March, in time for the spring plowing. Deck space was provided for the first shipment on a naval transport. Schools of instruction will be organized.

The acreage sown to crops in the uninvaded portion of France in 1917 was about 10,000,000 acres less than in 1913, or 24.4 per cent. The increased production through the use of tractors this year is expected to greatly improve the food situation.

A fireproof solution for treating airplane fabrics is a thing which may be realized in the near future, experiments in a private plant having already developed a comparatively successful solution.

There's a Penalty on Waiting—Buy Your Studebaker NOW.

You can get any Studebaker now on our floor at a price several hundred dollars less than you will have to pay in a very few months.

We see the handwriting on the wall—prices on ALL cars are going up.

The Government fixed the price of steel—but all OTHER materials are on the climb. This cannot help forcing car prices up.

It is good business, therefore, and splendid economy, too—to select your Studebaker NOW. This is true, even though you let it stand in your garage all winter long.

Next spring—if not earlier—you will pay a lot more money for the self-same quality.

This is NOT an effort to hurry you—it is information based upon our knowledge of the facts.

Buy your Studebaker NOW—it's the biggest value at its present prices that the next five years will see.

BIRTHDAYS

These have always been occasions of importance in human affairs, and without them history would soon become obsolete. "How old are you?" was a matter of converse between Abraham and Pharaoh at a pretty early day and age must be guessed at unless it is fixed by a recorded date. Great stress is placed thereon by many people while others are entirely indifferent to the subject. Arthur Bryant. a brother of the poet, W. C. Bryant, (and himself a poet of no low order), a long time resident of Illinois, at Princeton, the home of Lovejoy and zoned by the spirit of the Beechers, lived to a good ripe age and for many years preceding his decease composed a poem in honor of his birthday and only left off when they quit coming.

Elsewhere in this issue may be found the latest of our own aged citizen who for 30 years or more has pursued the same plan—not because Bryant did—but it resulted from an association of four persons whose date of birth was January 21st. Two of the club have "crossed over," the other two will exchange greetings today and tempt the New Year and the guidance of the Master in whose hands are the metes and bounds of life and death—"Who is too wise to err, and too good to be unkind to his trusting creatures."

It is sweet to be remembered, as I have been by messages of kindness, esteem and fellowship from so many dear friends who have in this way given proof of their love as I have reached and this day (January 21) pass another birthday, thankful for the past, happy for the present and hopeful for the future.

SAMUEL PARKER,
Glendale, California, January 21, 1918 and of my age the 87th.

TO LEARN DRESS MAKING

Mrs. Smith:—The Broadway Modiste, (who has taught dressmaking for years,) has decided to conduct a course in home construction providing there are fifty or more who desire to learn to make their own clothes. Every class will be worth while.

If interested, phone today to Glendale 511-W. 113t6*

Personals

Mr. and Mrs. Tom Furst of 200 North Isabel street, spent the week-end in Los Angeles with Mr. and Mrs. O. J. Furst.

The street light globes of Glendale which are dusted once in six months and washed once a year, are receiving their annual bath at the hands of Mr. Tyrrell.

L. H. Garwood of Santa Monica, has been added to the traffic division of the Police Department of Glendale. This makes six men available for police duty in this city. Mr. Garwood has been on the police force of the beach city.

You have been wondering why Glendale dry goods merchants do not advertise. Two of them present their offerings to you today. Appreciate their business enterprise by visiting their respective stores and if you need the goods make liberal purchases. At least tell them that you have read the advertisement.

A BEE CULTURIST

Mr. Ewing, a new comer from Wisconsin who with his wife is temporarily located in an apartment on Broadway near the City Hall, is investigating the outlook for bee culture in this locality. In his Wisconsin home as an amateur he made quite a study of honey production and he is very much inclined to go into it as a business here. He and Mrs. Ewing are much impressed with the beauties and advantages of Glendale and would like to locate here permanently.

SWEET POTATO LECTURE

Mrs. A. A. Barton, local chairman of County Council of Defense, announces that Mrs. Hazzard will resume her lectures tomorrow morning at the City Hall when she will give a talk and demonstration from 10 to 12 a. m. on the sweet potato. Large crops of sweet potatoes have been raised and the government is urging their liberal use because they are more perishable than the Irish potatoes and if not eaten now will be wasted. Mrs. Barton has lived in foreign countries where the sweet potato is a bigger factor in the dietary than here and she has many recipes for preparing sweet potatoes which are new to Americans.

Members of the Glendale Garden Society state that the soil of Glendale is especially adapted to the production of large crops of sweet potatoes of exceptionally fine quality. It is therefore well to post ourselves in regard to their food value and methods of preparing them for appetizing dishes. Glendale women are strongly urged to attend this lecture for which there will be no charge.

CALLED OFF

The regular monthly Red Cross Concert which was to have been held at the High School auditorium Jan. 28th has been called off because it will not be possible to secure the auditorium for that date. Students of the High School will be using it day and night all that week for rehearsals of the class commencement play.

Tickets already sold for the concert will be honored at the next one which will probably be given about the middle of February.

LECTURE AND RECEPTION

Mrs. Ida Vose Woodbury will give her Lincoln address tomorrow night at the First Congregational church, corner Third and Central. After the address there will be a surprise reception for Mrs. Sophia Porter who will celebrate her 80th birthday on this occasion. The church and congregation and all friends are invited.

Dr. Willisford arranged for Mrs. Woodbury's address before he left and spoke of her very highly as a talented woman and an orator of note.

BANQUET AND BOARD MEETING

This evening at 6:30 sharp in the bungalow at the Christian church, a banquet will be served by the ladies of the church to all the young people between the ages of 15 and 25. High School students under 15 who attend the Christian church or Sunday School are included in the invitation. Speakers from the Men and Millions team will address them. At 8:15 the same speakers will talk to the members of the official board of the church at the home of C. E. Hutton, 900 Colorado.

Boys' and girls' clubs in northern and western States pledged for war service in gardening, canning, poultry raising, and other emergency enterprises have more than 800,000 members.

The manufacture and consumption of pastry regarded as a luxury in France has been entirely suppressed, except on Sundays and holidays.

WEATHER FORECAST—Fair tonight and Tuesday. Killing frosts. Northeasterly winds.

RED CROSS JOTTINGS

Great is the disappointment at Red Cross Headquarters because the much needed and long expected shipment of yarn has not arrived. Tracers are being sent from here and from the San Francisco end to try to locate it.

Miss Ruth Taggart, from Indianapolis, Indiana, who, with other members of her family are spending the winter in Glendale, has tendered her services and been joyfully accepted as instructor on Friday in the Surgical Dressings Department. Miss Taggart has been an instructor in the Indianapolis Chapter and is very competent.

In this connection officials want the news spread broadcast that thirty to forty more workers are wanted in the Surgical Dressings Department on Mondays, twenty additional on Thursdays, and twenty more on Fridays.

Any one who desires to do this work will be required to furnish her own head dress and apron. That is the requirement of the government and the National Red Cross to preserve sanitary conditions. Applicants for enrollment in these classes are asked to communicate with Mrs. Eva Tuft, with Mrs. Boothby or with Mrs. E. R. Blackburn, cashier, at headquarters. Class hours are from 10 to 4:30.

Ladies from the Seventh Day Adventist Church will gather at headquarters for an all-day meeting Wednesday in the sewing department under direction of Mrs. Lawrence Ellis.

Tuesday High School girls will take possession of the workroom of the Surgical Dressings Department in the afternoon.

CHURCH FACES CRISIS

"Christianity's War Crisis" was the subject of the sermon preached by Dr. Wm. S. Marquis, representative of the New York Board of the Presbyterian Church, Sunday evening at the Glendale Presbyterian Church. Dr. Marquis comes from real "preaching" ancestry, one grandfather having served for sixty-three years in one church as pastor and the other grandfather having served another congregation for forty-three consecutive years. To break away from a wonderful church of his own and take up the Presbyterian Board work for the sake of the church he loves was a real sacrifice on the part of Dr. Marquis.

Mr. Marquis said in part: "Taking a backward look over events, we become conscious that we are face to face with a crisis. If Christianity does not rise to the occasion and emergencies of this war she will be set back a thousand years. Nations must choose and individuals must choose between the good and evil side, and it first of all becomes a crisis of faith. More than one man has found God in the hour of a crisis, who otherwise would never have felt the need of a faith. Will your faith stand the test? The first duty to man, the community and the world is to 'stand fast' in the Christian faith; nothing will do more for the home, the nation or the man in the trenches.

"The Church must mobilize men, money and machinery and every church should have its own organization for this purpose, carried out by inaugurating the 'every member' system, which reaches every man, woman and child and brings them into service. 'Efficiency' is the word; if you are tired of that word, use another one that will give the same result. Round up the whole church at least three times every year with an every-member canvass. Every branch is expected to bear fruit in the vineyard of the Lord. Develop man power and money power. Last year the Presbyterian church gave over nine millions for benevolences alone. It was a mere nothing by the side of what could be done if the 'every member' plan was faithfully carried out. Drop out the eating of meat one day in the week and save the amount—watch the result.

"The Church of Jesus Christ was given the contract for lighting the world. It was the biggest contract ever let. We must be trained and educated to handle the work. 'And behind the dim unknown standeth God, keeping watch upon His own.'"

CIVIL SERVICE EXAMINATIONS

Examinations will be held by the Civil Service Commission of Los Angeles County at Room 1907, Hall of Records, Los Angeles, for the following positions:

Saturday, February 16, 8:30 p. m., Stationary Steam Engineer; salary beginning $90 per month. Two appointments to be made. Before appointment to positions in Los Angeles candidate must possess a Los Angeles stationary engineer's license.

Saturday, February 16, 8:30 a. m., Firemen, Steam Boilers; two appointments to be made and an eligible list to be created. Salary $80 per month.

Vacancies exist from time to time in the following positions at the Los Angeles County Hospital: Porter, Ward Maid, Orderly, Waitress, Kitchen Helper, Laundry Helper, and others of this class. Non-competitive examinations for these positions are held at the offices of the Commission every day in the year except Sundays and holidays between the hours of 9 and 10 a. m. or applications will be received by mail.

February 8, 8:30 a. m., Deputy County Health Officer; Division of Communicable Diseases; Division of Venereal Disease Prevention. A separate eligible list is desired for each division. Salary beginning $150.00 per month. All candidates must be graduates of a medical school of recognized standing.

WEST GLENDALE W. C. T. U.

The West Glendale W. C. T. U. will meet Tuesday afternoon January 20 at the home of Mrs. Eva Waller, 1614 Oak street. The subject will be prayer. All are welcome.

OCCULT SCIENCE CHURCH

(Contributed)

Rev. A. William Goetz, pastor Occult Science of Christ Church, Hurtts Hall, Glendale, in his lecture on the teachings of Jesus the Christ's in everyday life said in part, "To learn to be above the seeming things of life and to learn to love thy neighbor as thyself was the main principle for the comfort in the home life. You need not love your neighbor's ideas, or your neighbor's mode of life. Your neighbor may have many earthly failures that you need not love emotionally any more than you are fond of your own short comings, but you certainly can learn to look and love all the good qualities in all your fellowmen.

"To always try and forget self is the necessity of everyone trying to follow the Master. Seek the Kingdom of God within others and you will find God dwelling within you, and where God dwells is peace, happiness and plenty. If you find yourself living in God you will find your light shining for all to follow and to see. But the impersonal must be reached. Let your light of love so shine that you will glorify your Father who is in Heaven. The self works openly for the glory of self. The God-self secretly for the Glory of God."

Birthday Annual

Jan. 21st, 1831—Jan. 21st, 1918—87

Yes, my 86th is going, going,
Gone, and 87th is here;
Good-bye to the one departed,
Greet 87 with a cheer.
These birthdays are very useful,
Keeping time as years pass by,
If by kindly act and greeting
We brighten friendship's tie.

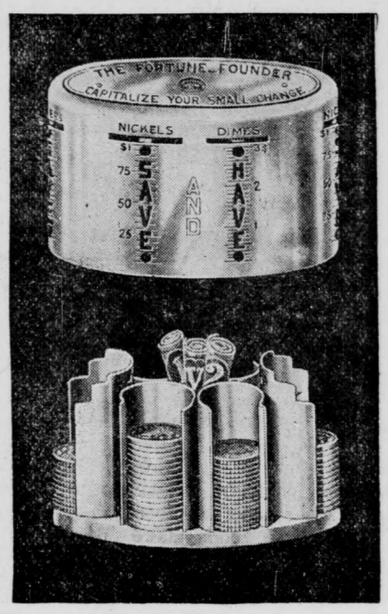
The inevitable is on us,
Be resistance ever so stout,
Vain the effort—it is fiat,
Soon or later we're down and out.
But let's bravely push the contest
While we see a fighting chance.
It is folly, it is weakness,
To surrender in advance.

In the way of years added
There is nothing coming to me,
Yet I'll gladly take what he giveth
And most grateful try to be.
And find in the time so extended
And employ the added days
In remembering his great mercies
And in grateful thanks and praise.

Oh, foolish indeed is that mortal
Who at any time thinks to give
To himself a binding promise
Of many years to live.
But wise is he who is waiting,
Should earth rock or stars fall,
Saying: "Master, I am ready,"
Should he hear the Master call.

And be the years few or many,
I will take what he cares to send;
In his hands are mercies only,
And on him I can depend.
I will gladly onward move,
Under promise so kindly given,
Companionship, guidance and love,
And the inspiring hope of heaven.

SAMUEL PARKER.



Buy Yourself a Thousand Dollar Bank Account

When you come right down to it, everyone should have money in a savings account and be adding to that money consistently and regularly, for saving money is one of the most progressive ideas extant and the Home Savings Bank is at once an encouragement and a convenience for forming the thrift habit.

W. C. T. U. DRIVE

(Continued from Page 1)

are two of the delegates to the Fresno Convention from this district.

The special address of the afternoon was by Mrs. Hattie C. Young, of Long Beach, State Recording Secretary. Her subject was "The Message of the Almighty Dollar." She said in part: "In so many homes we see the Service Banner displayed, showing that loved ones are in the service of the country. In the sixteen cantonments the boys have come from colleges, seminaries, from poor or rich homes, some from orphan's homes, professional or ignorant men, mingling with each other. Their environments have been very different, but now they are as one common family. At the beginning of the war, the government recognized three important organizations; 1st, the Red Cross, 2d the Navy League, 3d the W. C. T. U. Perhaps you did not know this before, but it is a fact. Many communities and particularly the public speakers of today, do not recognize the W. C. T. U. in the great army of workers for the soldiers' and sailors' betterment. For thirty years they have been giving to the needs of the boys. Many higher officers today who were privates in past years having received the Comfort Bags, with testament and good literature testify to their value.

"The most valuable thing about the W. C. T. U. war service work, aside from the testament, is the literature, because it is helping the boys in leading a clean life, was the testimony of a chaplain recently. In speaking of Comfort Bags a commander of a nearby camp said: 'We want our boys to have the ones made by the W. C. T. U. because they can easily be carried by the boys when we leave camp and they can take them on the marches and to the trenches.'

"The new plan for the almighty dollar is this: Southern California is to have a big drive for $30,000 for War Service Work. Los Angeles County is to give $15,000. Glendale, Tropico and Eagle Rock are asked to give $300. Kind friends won't you come to our aid when solicited and give us $500 for this is the first time we have ever come before the public for aid. For what purpose do we ask this money? Ten thousand more Comfort Bags, one thousand sweaters, 25,000 bandages, 7 Field Kitchenettes equipped at $700 each. A field kitchenette is a kitchen on a motor truck, following the boys to the trenches, 2 more ambulances at $1900, 10 hospital fans at $35 each, 4 stereomotographs at $500 each. Home centers for soldiers and sailors, evangelists at the cantonments, one W. C. T. U. evangelist, Mrs. Logi, through her untiring zeal was the means of helping 500 boys last year to accept Christ. 'The drive' will begin in the near future."

The closing feature of the afternoon was the dedication of the Service Banner, made by Miss Ruth Palmer. A touching prayer was offered by Mrs. Corbin. A number of the Y. P. B. girls sang "Keep the Home Fires Burning." The salute to the banner, composed by Miss Midcalf of the Third Street school was given and all sang the new stanza of "America."

Sixteen stars, representing the sons and grandsons of members of Glendale W. C. T. U. honor roll stood for the following young men. Hill and Howard McGillis, Mark and Harry Francy, Ralph Moore, Holman Midcalf, Roland Walters, Geo. Grist, Frank Wilkins, William Esterly, Russell Stanton, Edward McCullum, Wendell Bickford, Wendell and Claire Loveless and Dana Burkett.

Mrs. Grist served delicious tea and wafers to the large number of members and friends present.

FIVE THOUSAND U. OF P. MEN SERVING WITH COLORS

PHILADELPHIA, Jan. 21.—Five thousand graduates of the University of Pennsylvania have enlisted in the war and are either on the battlefields of Europe or in training camps in this city.

Eighteen Penn. men already have given their lives for the cause of world democracy, according to a compilation made under the auspices of Provost Edgar Fahs Smith.

Approximately forty nationalities are represented in the roster at the University of Pennsylvania in normal times. It is not strange then, that the Red and Blue has several hundred graduates who now are officers in the German army, arrayed against the United States.

"I have only sympathy for them," said Provost Smith in announcing this fact.

GERMAN PAPER TELLS OF HARDSHIPS OF SOLDIER'S FAMILY

The Committee on Public Information has made the following translation of a story appearing in the October 15, 1917, issue of the Leipziger Volkszeitung:

"A sample of the fashion after which bloated landlords treat the wives of soldiers has been brought to our attention from Upper Langenau in Silesia. One of the hired men of Dr. Mueller's agricultural estate has been for a long time at the front. His wife, who had worked alongside her husband before the war after the usual custom, remained in the ranks of the field hands and accordingly retained her cottage. October 1 this woman got the following letter:

"'The undersigned bailiff of the estate hereby gives you notice as of this date to the field service of January 1, 1918. On that day you are to give up your house. The work which you are doing on the farm does not compensate the farm for the loss which accrues to it through the continued support of your family. Look out for yourself away from this farm, your house is needed for other use.'

"The woman communicated the notice to her husband with these words: 'I must tell you my distress, soon I shall not be able to see the paper for my tears. What shall I do? Winter is at the door and the cottage is full of children.'

"Thus the bailiff of the estate of a bloated landlord turns a family with eight children out of doors in midwinter while the man is at the front. Comment takes care of itself."

COUNTRY BOYS NOT PHYSICALLY SUPERIOR TO CITY BOYS

According to records of the selective service, country boys do not show much physical superiority over those of the cities. For purpose of comparison selection was made of cities of 40,000 to 500,000 population, and a corresponding set of counties of the same total size. In the physical examinations 28.47 per cent of the city boys were rejected, as against 27.96 per cent of the country boys.

MEN AND MILLIONS

(Continued from Page 1)

years is now engaged in that mighty task. There are ten Japanese cities of more than 100,000 population and in all that land of 70,000,000 people, only 20 of our missionaries. The Buddhists fight our missionaries in every way possible, even taking the Bible and song books and inserting the name of Buddha wherever that of Jesus occurs. They tell the mothers that the missionaries will put out the eyes of their children.

Mr. Turner, who has held great pastorates in Kansas City, Mo., Peoria, Ill., and other large cities, and who left all this for the strenuous and poorly paid work of field secretary for the American Home Missionary Society in the great Northwest—Oregon, Washington, Idaho and Montana—was the next speaker, and he told sorrowfully of the many homeless churches and of the many others without pastors, in this great field. He spoke of the wonderful work to be done with the money apportioned from this Men and Millions fund. He also spoke most feelingly of the brotherly stand of the Southern California Disciples, whose liberal gifts to the home work will be used exclusively in helping the weak churches in wicked San Francisco and the Bay district.

Dr. Weldrum, president of Spokane Christian College, brought a thrilling message on the needs of the many Christian colleges whose graduates are going as ministers and missionaries to home and foreign fields, and plead most earnestly that Christian parents send their sons and daughters to the colleges where they can learn of Christ. Through the supine negligence of Christian peoples the Bible has been barred from the public school and the state universities making them Godless except for the Christian example of some of the consecrated instructors and there is vital need for the Christian college.

Mr. Muckley concluded that remarkable series of addresses by a dynamic plea for the Men and Millions movement, setting forth its origin, its remarkable growth and its mighty aims. More than six years ago a small group of devoted missionaries gathered around the sickbed of Alexander Paul, in far-off China, at his urgent request, to join with him in an earnest plea to the American Foreign Missionary Society for $40,000 to build and equip a Christian hospital. They prayed all night over it and Abe Cory, one of the number, was sent back to the homeland to bear the plea. He met with so much encouragement that the goal was enlarged to $100,000 to take in all of China. Soon the amount was raised to $500,000 with all the foreign mission fields included. Then the home missionary work was considered and $1,000,000 was the mark set, and in addition 1000 workers for the various fields. Then the needs of the Christian Benevolent Association with its thirteen orphanages and homes for old people were brought forward at one of the general conventions and a jump was made to $2,500,000. Finally at the great Christian Church Convention in Toronto, Canada, such business men as R. A. Long, the millionaire lumberman of Kansas City, Mo., our own W. F. Holt, who had already pledged $50,000 a year for five years, R. A. Doan and others, took the matter seriously to heart and in an all-night prayer meeting the final goal was set. Abe Cory boldly challenged Mr. Long to subscribe one million dollars and when the latter replied that he was in debt a million dollars borrowed to extend his lumber business Abe said to him, "Bro. Long, if you can borrow one million dollars to extend your business and make more money for yourself you can afford to borrow the same amount to extend the Lord's business." Mr. Long was so struck with this view that he agreed to give a million dollars if the team would set the goal at $6,300,000, the $300,000 to be provided for possible shrinkages. The task is nearly done and all the money in sight. Among the many striking incidents related by Mr. Muckley in describing his travels in pursuit of this great aim, just one will be related. He was in Peoria, Ill, attending the dedication of one of the finest Y. M. C. A. buildings in the country and the remarkable feature of it was that this magnificent building, dedicated to the Lord's work, was located on the lot where once stood the home of Robert Ingersoll, the great infidel and this called to his mind, said Mr. Muckley, the habit of Chaplain McCabe, that saintly Methodist soldier of the cross of always after he had dedicated a new Methodist church, sending a telegram to Ingersoll reading like this: "I have just dedicated another church building, three (or whatever the number might be) this week. How many theatres have you dedicated?" This referring to Ingersoll's declaration that in a few years more theatres than churches would be dedicated. In closing Mr. Muckley referred to the warm encouragement and heartfelt interest expressed by denominational churches, showing the splendid fellowship now existing among Christian peoples.

GOD'S HAND AT HELM

(Continued from Page 1)

'power of God unto salvation to every one that believeth.' Wherever the Bible goes, there goes light and joy.

"The Bible does not come to us with the specious idea that there is no sin, no evil, but with the plain, every-day, common sense statement of the fact that the whole world lieth in sin, but that Jesus Christ came to seek and to save that which was lost. That which counts is not theory but experience. Christianity lifts men and women from the level of the brute, and makes them an honor to Jesus Christ in this world.

"Peter says the prophecy is a light. I will call your attention to just one statement of prophecy, found in the second chapter of Daniel. We are there told that four great kingdoms would arise—Babylon, Medo-Persia, Grecia, Rome—that the fourth would be divided into ten parts, which was fulfilled when the barbarian hordes split the Roman empire into ten divisions, and that they would never cleave one to another. Charlemagne tried to establish the scattered power of Rome under one head, but failed. Napoleon Bonaparte conceived the idea of ruling the world. He almost succeeded, but met his Waterloo a little too soon. Kaiser William has thought he could revive the power of the ancient Caesars, uniting the world in one great empire, but he, too, will fail, for one word of Bible prophecy is stronger than all the armies of the world. God has said, 'they shall not cleave one to another,' and thus it is.

"God has his hand on the helm of events in this world. We should not be discouraged with the prospect. Christ is soon coming in the clouds of glory, and the suffering and trouble are to end. God's Word will yet triumph."

Cable rates have been reduced between North and South America.
